FOR IMMEDIATE RELEASE

Landscape Lighting New Years Resolution

INTRODUCING AN ADJUSTABLE LANDSCAPE GARDEN LIGHT THAT CAN GROW WITH YOUR PLANTS

Hampstead, North Carolina, January 15, 2007 – CopperScapes, artisans and manufacturers of 100% copper landscape lighting, announced today their *New Year's resolution is to make your personal outdoor world more inviting!!!* CopperScapes handcrafts organic designs into solid copper, low voltage lighting to accent gardens, patios, sidewalks, natural areas, and water features. Our landscape lights make it easy and affordable for the do-it-yourselfer to add tremendous curb appeal and value to your single biggest investment. Starting this month we're adding a brilliant new design element to our best selling fixture and we want to *raise the bar.....* so to speak, and throw in a FREE BONUS OFFER too.

Our newest design, ExtendaShroom, is especially created for those of you with really green thumbs. Your ever changing landscape that emerges from short Winter pansies to fully lush Summer hostas will really appreciate this extendible landscape light fixture that gives perfectly positioned year-round highlights. It's a fresh new version of our low voltage path light series with a "stem" that rises vertically from 14 to 20 inches, enough to peek above the new foliage and fresh blooms as your plants mature thru the seasons. All CopperScapes outdoor lighting is solid construction, hand soldered, pre-wired, with bulb included and ready to install.

It's a great time to take advantage of the unexpected warmer weather and we want to entice you to get your garden glowing.....so we're offering you a token GiftShroom that's absolutely FREE with your purchase of any set of four PathShrooms (at bulk discount price of course). Just enough light to put an extra twinkle in your magic garden. Visit our website for more details, garden light photos, other custom ideas and ordering info.
